

AMERICAN SOAPSTONE SLAB

Quarried in Virginia, American Soapstone is a classic. While most veining tends to be dark, occasional quartz and calcite veins ensure that each slab is stunningly unique. To enhance the full depth of its beauty, use mineral oil to enrich the color of American Soapstone.

NOTES

¹ Minimally sensitive to acids. Contact with acidic foods should not cause etching.

² Regarding Fiberglass Mesh Backed Stones for installation in wet areas, consult your fabricator for recommended installation method. Options include, but are not limited to complete removal of fiberglass mesh backing (where applicable) or installing with epoxy setting material. Any decision to install contrary to most current Marble Institute of America Dimension Stone Design Manual practices is solely at buyers discretion and risk.

³ If slab has fiberglass mesh backing, Mapei Kerapoxy 410 recommended.

⁴ Please see MIA DSDM (Dimension Stone Design Manual) for all installation instructions.

Sealer Note: While a sealer is not required, please use food grade mineral oil or AquaMix Sealer's Choice Gold if you choose to seal it.
