NOTES

[1] Minimally sensitive to acids. Contact with acidic foods should not cause etching.
[2] Regarding Fiberglass Mesh Backed Stones for installation in wet areas, consult your fabricator for recommended installation method. Options include, but are not limited to complete removal of fiberglass mesh backing (where applicable) or installing with epoxy setting material. Any decision to install contrary to most current Marble Institute of America Dimension Stone Design Manual practices is solely at buyers discretion and risk.
[3] May have fiberglass mesh backing, choose setting materials accordingly.
[4] Please see MIA DSDM (Dimension Stone Design Manual) for all installation instructions.
Mortar Note: The MIA recommends installing resin-backed stone with epoxy-based setting materials. Consult your setting materials manufacturer for specific recommendations.
Note: Alternate finishes and thicker formats available on special order.
